

WAB-GROUP is an innovative, globally operating, and leading group of companies in the field of mixing and wet grinding technology. From our headquarters in Muttenz/Switzerland, together with our 5 subsidiaries and more than 40 local sales partners, we serve our worldwide clientele.

To strengthen our Digital Services department, we are looking for a

Senior Application Developer (m/w/d)

In this role, you will shape the future development of our business processes and the supporting infrastructure. This includes ensuring the availability and stability of the entire ERP system at the Swiss headquarters, as well as at the subsidiaries in Europe, Asia and America. As part of a small team, you will be involved in providing customized functionalities for our employees and optimizing processes throughout the company.

Role purpose:

- Development and implementation of functional enhancements in the ERP system (Abas) using Java and the proprietary scripting language FOP
- Creation/adaptation of documents (Jasper) in the ERP system
- Interface programming
- User support and creation of documentation
- Administration of the ERP server (Linux)

Qualifications and experience:

- Profound knowledge in application development
- Used to find cross-system solution in a heterogeneous ICT environment
- Independent and structured working style
- Experience in ERP and database management
- Good knowledge of German and English, both written and spoken

What we offer:

- The opportunity to contribute your knowledge and ideas to a competent team
- Education/training in the areas relevant to the job
- Modern working environment and attractive pension scheme

We look forward to receiving your application in electronic form and will be happy to answer any questions you may have.
